

A Study of NDE Aftereffects in LGBT and Non-Gay NDEs (Handout)

This is a preliminary analysis of the survey statistics from **44 NDErs** from Dr. Liz Dale's and Kevin Williams' study as of April 2020. The current sample is small; but in the future, we anticipate having more surveyees for more accurate and conclusive results. Our survey is at: www.lizdale.com/survey.html.

From **Question #01**, there were **18 LGBT** NDErs and **26 Non-Gay** NDErs who responded to our survey representing **30.8% more** Non-Gay NDErs.

From **Question #02**: "Were there any changes in your values, attitudes, beliefs since your NDE other than religious, spiritual or afterlife beliefs?,"

36.4% more Non-Gay NDErs responded "Yes" and **0.0% more**, the same amount of **LGBT and Non-Gay** NDErs responded "No".

Does this suggest that LGBT NDErs are less likely to have any such changes compared to Non-Gay NDErs?

From **Question #03**: "Were there any changes in your personality since your NDE?,"

29.2% more Non-Gay NDErs responded "Yes" and **50.0% more Non-Gay** NDErs responded "No".

Does this suggest that changes in personality occur significantly more in LGBT NDErs compared to Non-Gay NDErs?

From **Question #04**: "Were there any changes in your outlook about life since your NDE?,"

29.2% more Non-Gay NDErs responded "Yes" and **50.0% more Non-Gay** NDErs responded "No".

Does this suggest that changes in outlook about life occur significantly more in LGBT NDErs compared to Non-Gay NDErs?

From **Question #05**: "Were there any changes in your religious or spiritual beliefs since your NDE?,"

15.8% more Non-Gay NDErs responded "Yes" and **71.4% more Non-Gay** NDErs responded "No".

Does this suggest that such changes occur significantly less in LGBT NDErs compared to Non-Gay NDErs?

From **Question #06**: "Were there any changes in your relationships, spouse, partner, friends since your NDE?,"

45.8% more Non-Gay NDErs responded "Yes" and **60.0% more LGBT** NDErs responded "No".

Does this suggest that such relationship changes occur significantly less in LGBT NDErs compared to Non-Gay NDErs?

From **Question #07**: "Were there any distressing aftereffects from your NDE?,"

35.3% more Non-Gay NDErs responded "Yes" and **22.2% more Non-Gay** NDErs responded "No".

Does this suggest that such distressing aftereffects occur less in LGBT NDErs compared to Non-Gay NDErs?

From **Question #08**: "Were there any changes in your dreams or dream content since your NDE?,"

23.5% more Non-Gay NDErs responded "Yes" and **44.4% more Non-Gay** NDErs responded "No".

Does this suggest that having such dream changes occur less in LGBT NDErs compared to Non-Gay NDErs?

From **Question #09**: "Did you have any problems being around electromagnetic fields since your NDE?,"

9.1% more Non-Gay NDErs responded "Yes" and **46.7% more Non-Gay** NDErs responded "No".

Does this suggest that having such electromagnetic problems are significantly less common in LGBT NDErs compared to Non-Gay NDErs?

From **Question #10**: "Were there any changes in sensitivity to light since your NDE?,"

31.1% more Non-Gay NDErs responded "Yes" and **30.0% more Non-Gay** NDErs responded "No".

Does this suggest that LGBT NDErs are less susceptible to such changes compared to Non-Gay NDErs?

From **Question #11**: "Were there any psychological challenges since your NDE?,"

35.0% more Non-Gay NDErs responded "Yes" and **16.7% more Non-Gay** NDErs responded "No".

Does this suggest that LGBT NDErs have significantly less psychological aftereffects compared to Non-Gay NDErs?

From **Question #12**: "Was there any difficulty reintegrating after your NDE?,"

15.8% more Non-Gay NDErs responded "Yes" and **71.4% more Non-Gay** NDErs responded "No".

Does this suggest that LGBT NDErs are significantly less likely to have difficulty reintegrating their NDEs compared to Non-Gay NDErs?

From **Question #13**: "Were there any changes in your jobs, school, interests, or hobbies?,"

34.8% more Non-Gay NDErs responded "Yes" and **0.0% more**, the same amount of **LGBT** and **Non-Gay** NDErs responded "No".

Does this suggest that LGBT NDErs have less such changes compared to Non-Gay NDErs?

From **Question #14**: "Did your I.Q. change after your NDE?,"

9.1% more LGBT NDErs responded "Yes" and **56.3% more Non-Gay** NDErs responded "No".

Does this suggest that slightly more LGBT NDErs have changes in I.Q. compared to Non-Gay NDErs?

From **Question #15**: "Did you have any paranormal experiences (e.g. apparitions) since your NDE?,"

41.2% more Non-Gay NDErs responded "Yes" and **11.1% Non-Gay** NDErs responded "No".

Does this suggest that significantly less LGBT NDErs have paranormal experience aftereffects compared to Non-Gay NDErs?

From **Question #16**: "Were there any changes in your feelings of compassion, caring, loving since your NDE?,"

40.0% more Non-Gay NDErs responded "Yes" and **66.7% more LGBT** NDErs responded "No".

Does this suggest LGBT NDErs have less changes in compassion, caring and loving after NDEs compared to Non-Gay NDErs?
